

I am a Full Stack Web Developer with expertise in various web technologies.

I have 11 years of experience in the Web platform and work regularly with PHP, SQL, JS, HTML and CSS.

Besides, I am skilled in Node.js, Express.js, TypeScript and React.js. I am using Prisma as default ORM in my JavaScript projects. I am developing SSR applications with Remix.js and Next.js. JavaScript is my primary language.

In addition:

I have 3 years of experience in the Laravel framework.

I am developing Themes and Plugins for WordPress (WordPress Core PHP, SQL, JS, HTML, CSS & Vite/WebPack).

I am developing Themes and Apps for Shopify Ecosystem (Remix.js, Prisma, Polaris, GraphQL, Rest, Liquid & Vite).

I am developing Themes and Modules for Prestashop 1.6/ Thirty Bees (Vanilla PHP, SQL, JS, HTML, CSS).

I have experience with web sockets. I have worked with web sockets in node.js+express+sockets.io, Laravel+Echo+Pusher.js, and, back in the day when I was in college, I created a C# websocket server and client for a chat application.

During my free time, I enjoy coding personal projects. I am always learning new web stuff.

I love to read daily.dev blogs.

I have been playing guitar for 25 years. I love to play video games and watch the NBA and Football.
